

## EHS Four-Year Personal Learning Plan & Graduation Planning Worksheet

In planning a four-year program, it is the student's responsibility to include all required courses. Use the chart below to plan a tentative program FOR A STANDARD DIPLOMA (Please see the Course Description Guide for ADVANCED DIPLOMA AND CTE DIPLOMA requirements). This plan should be re-evaluated each year as course requirements are completed, and as you begin to make specific plans for the years after high school. The courses already included in the plan are courses that should be scheduled in the year indicated. View your completed courses in Infinite Campus to update your plan each year.

- ALL students must have 7 classes (3.5 credits per semester)
- Foreign Language is a highly recommended for students who are planning to attend college after graduation from high school. Please check with any school you are thinking about attending for specific criteria.
- Students participating in the IB Diploma Programme have unique course requirements and should meet with the Diploma Programme Coordinator and Counselor regarding course selection and registration.
